PAIN KILLER.

1840 1870

PAIN is supposed to be the lot of our poor mortals, as inevitable as death itself, and liable at any time to come upon us. Therefore it is important that remedial agents should be at hand to be used in an emergency, when the principal principle lodged in the system shall develop itself, and we feel the excruciating agonies of pain, or the depressing influence of disease. Such a remedial agent exists in the PAIN KILLER, whose fame has made the circuit of the globe. Amid the eternal fogs of the polar regions or beneath the intolerable and burning sun of the tropics, its virtues are known and appreciated. Under all latitudes, from the one extreme to the other, suffering humanity has found relief from many of its ills by its use. The wide and broad area over which this medicine has spread, attests its value and potency. From a small bottle, the Pain Killer has pushed gradually along, making its own highway, solely by its virtues.

Such unexampled success and popularity has brought others into the field, who have attempted, under similarity of name, to usurp the confidence of the people and turn it to their own selfishness and dishonesty, but their efforts have proved fruitless, while the Pain Killer is still growing in public favor.

Spread the Truth.

Some medical men insist that it is undignified to advertise a remedy, however valuable it may be. Quer reasoning this, it is like saying that an article which the world needs should be hid in a corner—that benefits and blessings may be too widely diffused—that the means of protecting and restoring health should be a close monopoly, and not accessible to all. The argument is bad. It is worse than that—it is *inhuman*. Suppose Hostetter's Stomach Bitters—an absolute specific for dyspepsia, biliousness and nervous debility—had never been known beyond the borders of the faculty, what would have been the consequence? Instead of curing and invigorating millions, the good effects of the preparation would have been confined to a comparative few. There is the highest authority for saying that light should not be hid under a bushel, that whatever is excellent should be used as a city on a hill, that all men can take cognizance of it. It is upon this principle that the Bitters have been advertised and come to be advertised in every newspaper of any prominence in the western hemisphere, and that the spontaneous testimonials in its favor have been translated into all written languages. Thousands enjoy perfect health to-day who would be languishing on beds of sickness if the newspapers had not spread the truth with regard to this unequalled invigorant and corrective far and wide. Suppose profit had been reaped from this publicity. Is that any argument against it? If the public health has been protected; if lives have been saved; if the feeble have been strengthened, and the sick restored, great good has been accomplished; and who so mean as to grudge to exertions thus directed their fair reward?

My FRIENDS, stop that terrible cough, and thus avoid a consumptive grave, by using Dr. Pierce's Alt. Ext. or Golden Medical Discovery. For curing all throat, bronchial and lung diseases it has never been equalled. Sold by druggists.

ETIWAN GUANOS,
SOLUBLE MANURES,
AND
SULPHURIC ACID,
MANUFACTURED AT THE
ETIWAN WORKS,
CHARLESTON, S. C.
BY THE
SULPHURIC ACID AND SUPERPHOSPHATE COMPANY.

THE now well-known ETIWAN GUANO is manufactured from the Native Bone Phosphates of South Carolina. These Phosphates in their natural state are insoluble, and require to be ground to powder, and made Soluble by Sulphuric Acid. This Company have now in operation the largest Sulphuric Acid Chambers at the South, and are, therefore, able to manufacture at the lowest rates, the highest grade of Fertilizer; it being clear that the greater the proportion of Soluble Phosphate which any Fertilizer contains, the less the quantity required per acre. In order to make the Fertilizer complete, Ammonia and Potash in sufficient quantities are added. With these views the Company manufacture and offer for sale

ETIWAN GUANOS

Warranted to contain from 15 to 20 PER CENT. OF DISSOLVED BONE PHOSPHATE OF LIME, and from 2 to 2 1/2 per cent. of AMMONIA, with a sufficient addition of PERUVIAN GUANO and POTASH, to adapt it to all crops. Price \$63 per ton, cash; on time, \$70 per ton, and interest 7 per cent. per annum.

DISSOLVED BONE,

Of high grade, suitable for Manufacturers or for Planters, being in itself an excellent Fertilizer, and specially adapted for compost. As large quantities of Sulphuric Acid are used to dissolve the Phosphate, this will be found a cheap and convenient way to transport that material. The grade furnished will be from 18 to 20 per cent. Dissolved Bone Phosphate. Price \$40 per ton cash. On time, \$45, with interest at 7 per cent. per annum. Still higher grades will be furnished to order at an additional price per centage.

COMPOUND ACID PHOSPHATE,

Specially prepared for composting with cotton seed and other plantation manures. Price \$25 per ton, cash; on time, \$40, with interest at 7 per cent. per annum.

GROUND BONE,

At much lower rates, consisting simply of the Native Bone Phosphates ground to powder. Price \$20 per ton cash. On time, \$22 and interest at 7 per cent. per annum.

WM. C. BEE & CO.,
AGENTS, No. 14 Adger's Wharf, CHARLESTON, S. C.

N. B.—The percentage of Dissolved Bone Phosphate of Lime, and Ammonia in all the Etiwans, is ascertained at the Works, by their Chemist, before delivery. Should any purchaser be dissatisfied, he may return average samples of any purchase, within thirty (30) days after delivery, and they will be analyzed anew, and any deficiency in the per centage guaranteed will be made good to him by the Company.

SUPERPHOSPHATE

The Great Fertilizer for Cotton and all Crops!

THE unparalleled success of this Great Fertilizer on ALL CROPS, proves it to be the BEST and CHEAPEST Manure now offered in the market. It has been used by many of the most eminent Planters in the South, and

IN EVERY SINGLE INSTANCE IT HAS GIVEN ENTIRE SATISFACTION.

On COTTON its effects have been particularly marked. It is no rare thing for WHANN'S PHOSPHATE to increase the yield from ONE HUNDRED TO TWO HUNDRED PER CENT., or even more.

Mr. Geo. C. Dixon, an eminent planter of Cameron, Ga., in a letter to the Southern Banner and Planter, Augusta, Ga., says that in an experiment with seven leading Superphosphates and Guanos, WHANN'S proved itself the best of all those tried, paying a net profit at the low market rate of \$20.90 per acre of cotton. A copy of Mr. Dixon's letter will be sent on application.

Mr. John H. Holmes.

DEAR SIR: The GYPSUM submitted by you for analysis is the most remarkable I have ever seen for its freedom from impurities of every kind, containing as it does but one-third of one per cent. of insoluble matter. If it can be supplied of similar purity, it cannot fail to prove a great boon to Southern agriculture, as there is no crop to which it is not beneficial, whether applied alone or in conjunction with other manures.

Very respectfully, your obedient servant,
